Kaysville, UT 84037

Dear Mr. Witzel:

RE: ML 3092 Perlite; S/001/027

The rules governing state mineral leases require you to notify the Division of State Lands & Forestry at least 60 days prior to commencing any mineral operations under the above numbered lease. You may also be required to post a reclamation bond with the division.

Notification to the Division of Oil, Gas and Mining is also necessary. I understand that you have already contacted that agency regarding your proposed mineral operations upon these lands.

I am enclosing information which you will need in submitting a notification to the Division of State Lands & Forestry. Division rules require that you not commence any new mineral operations upon the leased lands until you have met all notification and bonding requirements of the Division of State Lands & Forestry.

Thank you for your cooperation in this matter. Please contact me if you have any questions.

Sincerely,

JOHN T. BLAKE  
MINERAL RESOURCES SPECIALIST
